

## **Cataloguing by Crowd Workshop: Grindstone Island: July 2005**

---

### **“Back End” Working Group Report – I, July 20, 2005**

Michael Jenkins (recorder)

- Issues of yesterday
- Ingest
  - Pseudo-code
  - Medium to large institutions vs smaller institutions
  - XML based (small institutions need to learn how to do this anyways)
  - Submit files and corresponding images
  - Run processes to correct “light” processing
  - 7 required fields from the AMICO Model
- Functional Areas (and their data models – sketch of entities and attributes)
  - Users
  - Terms
  - Environments
    - Modes
- Script Library
  - Structure of tables for reporting and registering
  - Comments, sequences
- Export
  - Dump
  - Stats
  - Reports
    - to screen
    - to download
